Call (800) 325-5685 toll-free today!

Dear XFNAME1X,

Do you want to feel confident that:

- Your health status has been thoroughly checked?
- You have done all you can to ensure you live a long and active life?
- You have true peace of mind, or an early warning if something is wrong?

Annual physicals with your doctor are an important step toward achieving these goals, but physicals can't check for everything.

In fact, ask yourself: When was the last time a physical **used ultrasound to see inside your arteries for plaque buildup**, a dangerous condition that could lead to heart attack and stroke?

Now it's possible with a simple ultrasound screening that can reveal plaque buildup or blockage, from Life Line Screening.

These screenings have proven to be safe and accurate.

Plaque buildup can lead to heart disease, aneurysm and vascular disease.

A normal artery allows blood to flow through easily.

As you age, arteries can become partially blocked.

Plaque buildup reduces your blood flow and can be dangerous if left untreated.

That's why so many doctors have recommended Life Line Screening to their patients. Last year alone, over 7,000 Life Line Screening customers reported that their doctors recommended Life Line Screening.

All screenings are provided right in your community, starting as low as \$70 each. You can also receive all four recommended screenings for the special price of only \$135 – and save \$135. These include:

- Carotid Artery Screening (Plaque)
- Heart Rhythm Screening (Atrial Fibrillation)
- Abdominal Aortic Aneurysm Screening
- Peripheral Arterial Disease Screening

Because you are a valued member of Maryland Farm Bureau, call today and receive a FREE Osteoporosis Risk Assessment.

The screenings will take only about one hour of your time, and you will be notified if you have an immediate problem*.

A Trusted Partner

Life Line Screening has conducted over 11 million screenings, and customers sometimes tell us that they feel the screenings saved their lives.

Life Line Screening is coming to your area for one day only. There are only a limited number of available appointments, and advance registration is required.

What's inside your arteries? Call toll-free (800) 325-5685 now to schedule your screening.

Sincerely,

Valerie Connelly
Executive Director

P.S. These are the same screenings that your doctor could order for you, but they typically will not be paid for by insurance unless you already have symptoms.

*In most states

Screening results are provided to you in 21 days. We direct all participants with abnormal results to take the report to their physician. Carotid Artery and PAD screenings help identify the presence of Atherosclerosis, and if found, can be an early warning for higher risks of stroke and coronary artery disease. Such early warning information can help you and your doctor take important steps to reduce your risk for more serious health issues. If necessary, steps may include lifestyle and diet, medical therapies, and even more thorough follow-up testing and evaluation of your heart function. Appropriate modification of risk factors (including high blood pressure, smoking, heart disease, diabetes and poor diet) is also necessary for cardiovascular disease prevention. Our screenings cannot detect all forms of stroke risk or cardiovascular disease. All tests are for screening purposes only. You should consult with your personal physician regarding your screening results. Insurance Note: Life Line Screening does not participate in the Medicare program and the cost of our screening services is not covered or reimbursable by Medicare. Life Line Screening does not file insurance claims nor provide referrals to any physician's group or hospital. Screenings in California are provided by Life Line Mobile Screening, a physician owned practice. Screenings in Kansas are performed by Life Line Screening of America, Ltd. on behalf of Life Line Screening Physicians, P.A. Screenings in New Hampshire, New Jersey and New York are performed by Life Line Medical Screening, LLC (Dr. Andrew Manganaro, 70 Niagara Street, Buffalo NY, 14202). Life Line Screening does not engage in the practice of medicine in those states. This information is not intended to induce referrals by Life Line Screening to Life Line Medical Screening, LLC for any professional medical service. Texas residents: Physician authorization is required. A Life Line Screening affiliated physician will provide authorization for you if you qualify. Cancellation Policy: A full refund is issued if you call to cancel at least 2 days prior to your appointment. If less than 2 days' notice is given, we will issue a Gift Card for the full amount to be used by you, or anyone you choose, to purchase future screening services.
