March 10, 2023

To: Washington County Farmers/Farms and Farm Bureau  
From: Washington County Division of Environmental Management – Solid Waste Department  
Re: Agricultural Tire Recycling Collection Program

This is to advise the Washington County Farms/Farmers/Farm Bureau that the Department of Solid Waste is accepting tires from Washington County Farms at **no charge** on the following dates only: May 5,6,8, and 9, 2023 at the Forty West Landfill located at 12630 Earth Care Road, Hagerstown, MD 21740.

All tires must be delivered by the Farmer to the Forty West Landfill. **A copy of this letter must be brought with each load of tires.** Each load must check in at the scale house before disposing of tires. You **MUST** weigh back out when you leave each time so we can keep track of our total tonnage coming in.

Washington County Maryland can only accept and recycle 200 tons of tires. It is also strongly recommended that Farmers call 240-313-2796 for a prerecorded message on the status of tire recycling acceptance beginning Saturday morning before leaving your farm. We will only be able to collect 200 Tons!! If the 200 tons of tires has been accepted, the cost for Tire recycling is \$250 per ton. Do not call any other Landfill number, please. Thank you.

**No limit to number of tires per vehicle  
Passenger, light truck, and agricultural tires  
on or off rims accepted  
Commercial Businesses Prohibited!!**

**DROP TIRES OFF BETWEEN  
7:00 AM & 2:00 PM  
AT THE FORTY WEST LANDFILL  
12630 EARTH CARE RD., HAGERSTOWN, MD**

Name of Farm or Address: \_\_\_\_\_

Farmer Signature: \_\_\_\_\_

**This event is being funded by a grant from MDE through fees collected when tires are purchased!**
